Updated February 3, 2016

Approved by NRIC Board of Superintendents 3/1/16

Introduction

The Northern Rhode Island Collaborative offers special education day programs for students with a wide range of disabilities. The Collaborative's reliance on technology to enhance the educational experiences of its students is well recognized by both administration and teaching staff. Efforts to maintain an operational technology component to support Collaborative initiatives and programs has been a long-standing priority for past and present administrations. The Collaborative is continuing its efforts to enhance programming through appropriate and consistent use of technology by all stakeholders. We are currently utilizing an online IEP management system and promoting a regional framework for all of the 11 districts.

Additionally, through our Professional Development Academy, is promoting distant learning opportunities with video-conferencing courses and workshops for teacher assistants, teachers and administrators. The Northern Rhode Island Collaborative also offers professional development and training for the region's educational staff in the areas of Transition Services, Special Education and Technology. Our training facility is used to train local LEA staff along with statewide stakeholders.

The Northern Rhode Island Collaborative is comprised of four sites and one central office building. At present, it services over 200 students with a range of disabilities. All of our sites and classrooms have internet access and will continue to increase bandwidth to support ever changing educational needs.

All NRIC classrooms have computers for student and teacher usage. The educational software used in the classrooms has been selected based on the current individual needs of the students within the classroom related to their identified curriculum needs.

Technology is seen as a resource to increase the power and enhance the potential of the teacher and the student. The Collaborative employs a full time Technology Director. Technology integration assists students in the realization of the global society. It strengthens the learning experience by introducing relevance to the situation. Technology offers the opportunity to deal with new, current and breaking information from a variety of sources. Access to technology should be common place for all learners, teachers, and administrators.

Northern Rhode Island Collaborative Technology Plan

Goal 1: To provide students with technology-based educational experiences that prepare them for post school success.

Objective 1: Students will have access to technology as needed within the school environment.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
All classrooms will have at least one new state of the art computer designated for student use.	Executive Director, Director of Educational Services, Technology Director	\$\$	2014	Student computers in place	<i>Completed</i>
All computers will have access to the Internet.	Director of Educational Services, Technology Director	\$\$, Infrastructure upgrades	2014	Continued electrical and network upgrades when necessary	<i>Completed</i>
NRIC will increase Internet Access in all classrooms to support up to five students computers per classroom.	Director of Educational Services, Technology Director	\$\$, Infrastructure upgrades	2014	Continued electrical and network upgrades when necessary	<i>Completed</i>
Implement wireless devices within the classroom environment.	Director of Educational Services, Technology Director	\$\$, Infrastructure upgrades	2014	Continued electrical and network upgrades when necessary	<i>Completed</i>
Increase student computer skills and access through the development of School Building Computer Labs.	Director of Educational Services, Technology Director	\$\$, Infrastructure upgrades	2014	Continued electrical and network upgrades when necessary	In-progress

Northern Rhode Island Collaborative Technology Plan

Goal 1: To provide students with technology-based educational experiences that prepare them for post school success.

Objective 2: Students will develop proficiency in the use of technological tools.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Incorporate technology into the classroom curriculum	Executive Director, Director of Educational Services,	\$\$, Professional time, Curriculum development time	Ongoing	Teacher evaluation	Ongoing
Students will participate in Compass Learning – Odyssey Software and Lexia Learning Software.	Director of Educational Services, Technology Director	Software upgrades; Suitable Hardware; High Speed Internet Access, Increased Bandwidth	Monthly	Teacher student use reports generated and evaluated.	Ongoing
Increase student computer skills and access through the development of School Building Computer Labs (Standard and Wireless)	Director of Educational Services, Technology Director	\$\$, Infrastructure upgrades	2014	Student’s actual usage of the Computer Labs through schedule documentation.	In Progress

Northern Rhode Island Collaborative Technology Plan

Goal 1: To provide students with technology-based educational experiences that prepare them for post school success.

Objective 3: Students will develop proficiency in the use of software.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
*Word-processing, spreadsheets, presentation, and database software	Director of Educational Services, Technology Director	Tech support, professional development	Sept. – June	Increased time on task, Increased student achievement	In progress
Educational software	Director of Educational Services, Technology Director	Tech support, professional development, High Speed Internet Access, Increased Bandwidth	Sept. - June	Increased time on task, Increased student achievement	In progress
* MS Office Suite- current standard	Director of Educational Services, Technology Director	Tech support, professional development	Sept. - June	Increased percentage of proficiency	In progress

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

To provide teachers with the knowledge and ability to use technology for communication, as an enhancement to curriculum and instruction, and as a personal and professional tool.

Goal 2:

Objective 1:

Provide classroom management techniques for teacher use.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Use electronic gradebook/planbook	Director of Educational Services, Technology Director	Professional development	2014-2017	Increased use yearly per tech survey	Ongoing
Use classroom Internet tools (i.e. homework websites, teacher-created website, bulletin board)	Director of Educational Services, Technology Director	Professional development, software tools, High Speed Internet Access, Increased Bandwidth	2014-2017	Increased use yearly per tech survey	Ongoing
Utilize merges/form letters using a data source	Director of Educational Services, Technology Director	Professional development, software tools	2014-2017	Increased use yearly per tech survey	Ongoing
Utilize a computerized IEP management system for NRIC and the NRIC Districts.	Director of Educational Services, Technology Director	IEP Software, Professional development, High Speed Internet Access, Increased Bandwidth	2014-2017	Participation Survey, End-of-year Report	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

To provide teachers with the knowledge and ability to use technology for communication, as an enhancement to curriculum and instruction, and as a personal and professional tool.

Goal 2:

Objective 2:

Provide in-class technical support to help integrate technology into curriculum.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Expand Professional Development opportunities for teachers, administrators, and support staff.	Executive Director, Director of Administration, Director of Educational Services, Technology Director	\$\$, Professional development	2014-2017	Expanded training opportunities, conference evaluation forms	Ongoing
Provide support to classroom teachers in the proficient use of a variety of technology hardware (i.e. presentation devices, digital cameras, camcorders, etc.)	Director of Educational Services, Technology Director	\$\$, Staff, Equipment	2014-2017	Increased tech support	Ongoing
<i>Provide all staff members with e-mail accounts to promote communication.</i>	<i>Executive Director, Technology Director</i>	<i>\$\$, Staff, Servers</i>	<i>2014-2017</i>	<i>All staff logged into the e-mail system.</i>	<i>Completed</i>

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

To provide teachers with the knowledge and ability to use technology for communication, as an enhancement to curriculum and instruction, and as a personal and professional tool.

Goal 2

Objective 3:

Provide support to facilitate a more expansive, streamlined communication system.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Upgrade the NRIC website on a regular basis.	Executive Director, Technology Director, Administrative Assistant	Personnel	2014- 2017	Updated website	Ongoing
Provide the hardware and technical support to facilitate a more expansive, streamlined communication system.	Technology Director	\$\$, Personnel, High Speed Internet Access, Increased Bandwidth	Ongoing	Continuous access from inside and outside the NRIC, increased utilization of digital communication	Ongoing
<i>Develop and promote an internal e-mail system.</i>	<i>All Administrators</i>	<i>\$\$, Server and Software.</i>	<i>2014- 2017</i>	<i>Complete, 100% usage of NRIC e-mail system by all employees.</i>	<i>Complete</i>
<i>Provide classroom support via help desk resources, online technical requests.</i>	<i>Technology Director</i>	<i>\$\$, Professional development, personnel</i>	<i>2014- 2017</i>	<i>Tech requests via Internet</i>	<i>Complete</i>

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

To provide teachers with the knowledge and ability to use technology for communication, as an enhancement to curriculum and instruction, and as a personal and professional tool.

Goal 2

Objective 4:

To improve educational outcomes for students and staff efficiency utilizing Technology

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
<i>1. Convene a Technology Committee to update the current Technology Plan to meet the needs of the Collaborative staff and students</i>	<i>Executive Director, Director of Administration, Director of Educational Services, Technology Director</i>	<i>Time, secretarial support</i>	<i>2014-2017</i>	<i>Updated Plan</i>	<i>Completed</i>
2. Actively explore grants and other funding opportunities to introduce up-to-date technology to staff and students.	Executive Director, Director of Administration, Director of Educational Services, Technology Director	Time, secretarial support	2014-2017	Grants written and awarded	Planned/Ongoing
3. Provide professional development to NRIC & LEA staff.	Director of Administration, Director of Educational Services, Technology Director	\$\$, Staff, Personnel Time	2014-2017	Professional Development Evaluation Forms	Planned/Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Action Plan

Goal 3: To provide administrators with the technological tools for organization, management, and communication.

Objective 1: Provide organizational and management tools utilizing technology

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Generate IEP Management reports	Director of Educational Services, Technology Director	\$\$, Training	2014-2017	Reports available in a timely manner	Ongoing
Utilize Student Information Systems, IEP Management System	Director of Educational Services, Technology Director	\$\$, Necessary Training, software updates	2014-2017	Working systems in place	Ongoing
Utilize Databases (i.e. Access)	All Administrators	\$\$, Training	2014-2017	Databases being utilized	Ongoing
Utilize Personal Organizer (i.e. Outlook)	All Administrators	\$\$, Training, Equipment	2014-2017	Personal organizers used regularly, develop survey	Ongoing
Develop Common Reporting Forms and System folders for usage.	Director of Educational Services, Technology Director	Time, training	2014-2017	Common forms and folders used to write monthly reports and generate internal checks of compliance.	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

Goal 3: To provide administrators with the technological tools for organization, management, and communication.

Objective 2: Improve communication among all members of the NRIC and participating LEA community.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Maintain the NRIC website on a regular basis	District webmaster	Personnel	2014-2017	Updated website	Ongoing
Provide update information electronically to be integrated into the District / School Website	Executive Director, Technology Director	Professional development	2014-2017	Up to date information available 2011-2014 school year	Ongoing
Provide the hardware and technical support to facilitate a more expansive, streamlined communication system, utilizing our newly developed WAN.	Executive Director, Technology Director	\$\$, Personnel, High Speed Internet Access, Increased Bandwidth	Ongoing	Continuous access from inside and outside the NRIC, increased utilization of digital communication	Ongoing
Utilize the IEP Management System for RIDE Census reports, student status, LEA district needs.	Executive Director, Director of Educational Services, Technology Director, district administrators	\$\$, Software, Professional development	2014-2017	Successful LEA and NRIC participation	Ongoing
Purchase and/or upgrade existing cell phones and mobile devices	Executive Director, Director of Administration, Technology Director	\$\$	2014-2017	Cell phones purchased and/or upgrades	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

Goal 4: To provide staff with the technological tools to facilitate and manage their work.

Objective 1: Provide organizational and management tools using current technology-based platforms.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Training in Microsoft Office Suite (novice to advanced)	Executive Director, Director of Administration, Director of Educational Services, Technology Director	\$\$, Professional development	2014-2017	Increase in usage by support staff	Ongoing
Job-specific software training	Director of Educational Services, Director of Administration, Technology Director	\$\$, Professional development	Ongoing	Increase in usage by support staff	Ongoing
Training in the Personnel Assignment Process	Executive Director, Director of Administration/Human Resources, Technology Director	Professional development	2014-2017	Increase in usage by support staff	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

Goal 4: To provide staff with the technological tools to facilitate and manage their work.

Objective 2: Provide support and equipment for effective communication systems.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Maintain the school and district website on a regular basis	District Webmaster	Personnel	2014-2017	Updated website	Ongoing
Provide the hardware and technical support to facilitate a more expansive, streamlined communication system	Executive Director, Director of Administration, Technology Director	\$\$, Equipment, High Speed Internet Access, Increased Bandwidth	Ongoing	Continuous access from inside and outside the NRIC, increased utilization of digital communication	Ongoing
Provide training in the use of the NRIC internal e-mail system	Director of Educational Services, Technology Director	Staff	2014-2017	All support staff logged onto the network.	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

Goal 5: To provide a professional development program that enables all staff to gain proficiency in the use of technology.

Objective 1: Expand the existing professional development program to meet the needs of teachers

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Respond to annual technology surveys	All Staff	Survey materials	Annually	Analysis of completed surveys	Ongoing
Assess data retrieved from annual technology surveys	Executive Director, Director of Educational Services, Technology Director	\$\$, Materials	Annually	Analysis of completed surveys	Ongoing
Define specific technology resources for curriculum enhancement	Certified Staff	None	Annually	Increased participation in technology professional development	Ongoing

Italics indicates completion of objectives

Northern Rhode Island Collaborative Technology Plan

Goal 5: To provide a professional development program that enables all staff to gain proficiency in the use of technology.

Objective 2: Expand the existing professional development program to meet the needs of Administration

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Respond to annual technology surveys	Executive Director, Director of Educational Services, Technology Director	Survey materials	Annually	Analysis of completed surveys	Ongoing
Assess data retrieved from annual technology surveys	Executive Director, Director of Educational Services	None	Annually	Analysis of completed surveys	Ongoing
Market technology opportunities to increase participation	Executive Director, Director of Educational Services	None	Ongoing	Continued increase in participation/survey results	Ongoing
Revise survey	Executive Director, Director of Educational Services	Time	Annually	Revised survey	Ongoing

Northern Rhode Island Collaborative Technology Plan

Goal 5: To provide a professional development program that enables all staff to gain proficiency in the use of technology.

Objective 3: Expand the existing professional development program to meet the needs of support staff.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Respond to annual technology surveys	Support Staff	Survey Materials	Annually	Analysis of completed surveys	Ongoing
Assess data retrieved from annual technology surveys	Executive Director, Director of Educational Services,	\$\$, Materials	Annually	Analysis of completed surveys	Ongoing
Define technology resources for job specific requirements	Executive Director, Director of Educational Services,	None	Annually	Increased participation in technology professional development	Ongoing

**Northern Rhode Island Collaborative
Technology Plan**

Goal 6: To provide maintenance and security of existing technology platforms

Objective 1: Provide necessary maintenance for existing technologies.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
<i>Provide support positions to maintain existing technologies</i>	<i>Executive Director</i>	<i>\$\$, Technology Director</i>	<i>Sept. 2006</i>	<i>Technology Director Hired</i>	<i>Completed</i>
Provide diagnostic equipment, software, hardware, wireless access	Executive Director, Director of Administration, Technology Director	\$\$, Equipment	2014-2017	Tools available to increase computer reliability and uptime.	Ongoing
Provide electronic help desk.	Technology Director	\$\$	2014-2017	Help desk in place	<i>Complete</i>

Northern Rhode Island Collaborative Technology Plan

Goal 6: To provide maintenance and security of existing technology platforms.

Objective 2: To utilize the most up-to-date security available

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Utilize virus protection	Executive Director, Technology Director	\$\$, Staff	2014- 2017	Virus protection in place	In place / Ongoing
Utilize desktop security	Executive Director, Technology Director	\$\$, Licenses and software	2014- 2017	Desktop security protection in place	In place / Ongoing
Utilize Operating Systems	Executive Director, Technology Director	\$\$, Licenses and software	2014- 2017	Operating system protection in place	Windows 2012 Server security in place
Utilize internet filtering	Executive Director, Technology Director	\$\$, Licenses and software	2014- 2017	Internet filter protection in place	In place / Ongoing
Utilize network security software	Executive Director, Technology Director	\$\$, Licenses and software	2014- 2017	Network security in place	Firewall installed, ongoing

Northern Rhode Island Collaborative Technology Plan

Goal 7: To align all school technology purchases with real world technology needs

Objective 1: Stay abreast of current trends in equipment, software, and information technology.

Activities/Tasks	Persons Responsible	Resources Required	Timeline	Evaluation of Success	Status
Purchase technology necessary to support real world needs	Executive Director, Director of Administration, Technology Director	\$\$	2014-2017	Technology in place	Ongoing
LEA District, parent, and NRIC community interaction	Executive Director, Director of Administration, Technology Director	\$\$, Surveys	2014-2017	Evaluate surveys	Ongoing
